REMARKS

(Scope of inspection, Findings, Recommendations, Instructions, etc.)

Contractor began work on June 9 and completed project on June 12, 1981 under supervision of Mel Wood, acting as inspector for the City of Elgin.

Project looks very good, cross section has been restored, neat edges with shoulder rock tucked up against new pavement. Pavement ruts and irregularities were patched prior to placing of wearing surface. Ride is very good.

This project is a good example of City administered SCA project. Project records have been reviewed and found to be in order. Acceptance is recommended.

Bill from the City will be forwarded upon return of City Recorder from vacation.
